

REMARKS

Prior to an examination on the merits, the claims are amended to add new claims 32-34. These claims are supported throughout the specification and drawings as filed, and no new matter is added.

The amendment was not made for a reason related to patentability, and the full range of equivalents for all of the elements of the amended claims, as well as for all of the other claims, should remain intact.

A favorable consideration that results in the allowance of all of the pending claims is earnestly solicited.

Respectfully submitted:
